

Read the article and then answer the questions.

- 1 What is the scientists' explanation for the shape of an egg?
- 2 What do eggs and domes have in common?
- 3 Why does the writer say: If the egg wasn't shaped the way it is, we'd have a lot of broken eggs to clean up!?

Answers:

1. The egg shape makes it strong - The egg shape makes it special.
2. They both have a the same texture - They both have a curved shape which makes them strong.
3. Because eggs would break easily - Because eggs are eaten by many people for breakfast.
