READING

7. Read and choose. (18 points)

Gorillas live in the jungles of Africa. Gorillas are big, strong animals with hair all over their bodies! They are clever, kind animals and live in groups. They can live for up to 50 years. Gorillas eat fruit, plants and insects. Gorillas are in danger because some people hunt them for their meat and cut down the trees in the jungles. There aren't many gorillas in the world. They need our help!
