

Information Transfer

Read about Mrs Wong who is interested in getting some fruits at the fruit stall.

All these fruits are rich in vitamin C. The mandarin oranges are the cheapest because they only cost 60 cent each. However, they may not be fresh because they are imported from China. They are sweet and juicy but there may be some rotten ones in the box.

I can get about three big mangoes and each mango costs \$1.35. It's enough for my family and they taste very sweet. I can't be kept for a long time so we have to eat them within a week. These mangoes are from Thailand.

The guavas are also sweet. They are seedless so they are easy to eat. They are imported from Malaysia. Each guava costs about \$1.70. That's quite expensive but I can cut it into at least eight pieces. I read that guavas have a very high content of vitamin C.

	A	B	C
Type of fruit	Mandarin orange	1.	2.
Country	3.	Thailand	4.
Price	5.	6.	\$1.70
Taste	sweet and juicy	7.	8.
