

*Listen to the big speaker and match the small one to the picture*

The worksheet contains 18 small speakers arranged in a 3x6 grid. Above the grid is a row of 10 animal pictures: a cat, two chickens, a dog, a cow, a rabbit, a duck, two sheep, a horse, two pigs, and a rabbit. To the left of the grid is a column of 5 animal pictures: a gorilla, a hippo, a lion, a snake, and a crocodile. To the right of the grid is a column of 5 animal pictures: a parrot, an elephant, a zebra, a fish, and a tiger. The goal is to match the sound from the large speaker to the correct animal picture.
