Question 18: Take a short break! You _____ all day.

A. have been working **B.** are working **C.** were working **D.** work

LIVEWORKSHEETS

READING

Read the following passage and mark the letter A, B , C or D on your answer sheet to indicate the correct answer to each of the questions .

Forty - two years ago, two Americans landed on the moon, taking the human race to another planet for the first time. On July 16, 1969 Armstrong, Aldrin and Collins climed into Apollo 11 .The unit's Saturn V rocket, equipped with the most powerful engines ever built, blasted them into space. Their trajectory took them around the Earth and toward the moon when a third-stage rocket fired. Two modules-the Eagle, for landing, and the Columbia, a command and service center- entered the moon's orbit on July 19. Neil Armstrong, Buzz Aldrin, piloting the Eagle landing module, stepped down on the moon on July 20,1969.The third US astronaut ,Michael Collins ,was in the orbiting command module overhead. "That's one small step for a man, one giant leap for mankind", said Armstrong. The words were seared into the memories of the 600 million some people- about 1/5 of our planet's population at that time-who watched the broadcast transmitted from the lunar surface. And for a time it seemed the impossible was just the beginning.

Question 19: What was the name of the module that landed on the moon?

A. Saturn V **B.** the Columbia **C.** the Earth **D.** the Eagle

Question 20: Which is not mentioned about Apollo 11?

A. It failed to land on the moon

B. It was launched 42 years ago

C. It belonged to the USA

D. It had the most powerful engines at the time

Question 21: Apollo 11.....

A. was launched on July 20, 1969

B. had no man on board

C. was launched on July 16, 1969

D. had two men on board

Question 22: Which sentence is not true?

A. There were 600 million people watching the scenes sent from the moon

B. Michael Collins did not step down on the moon

C. Only two astronauts of the crew of three stepped on the moon

D. Neil Armstrong was too excited to say anything when he was on the moon

Question 23: Relative pronoun who refers to.....

A. Neil Armstrong

B. the astronauts

C. the TV viewers

D. the Earth's population

Read the passage and choose the correct option A, B, C, or D that best fits each of the numbered blanks

LIVEWORKSHEETS

Why is global warming a problem? High levels of greenhouse gases in the atmosphere lead (24) _____ climate change. The oceans and seas are getting warmer and the polar ice caps are melting. This causes the rise in sea levels, (25) _____ threatens low coastal regions and islands. (26) _____, the weather is becoming more unpredictable, with severe storms and floods, or unexpected droughts. Another effect of global warming is a rise in the number of (27) _____ species. Many animals and plants could become extinct if their natural habitats are changed. What can we do about it? Scientists now agree that there is an urgent need to cut carbon emissions across the world. Moreover, we need to develop alternative sources of energy, such as wind, wave, or solar power. For individuals, being a vegetarian (28) _____ your carbon footprint because it can reduce energy use.
