

Activity 11

Day and night

In this activity, a globe will be used to represent the Earth. A torch will be used to represent the Sun.

- 1 Turn off the lights in the classroom and shine a torch on the Earth. On the photograph above, shade the area of the Earth which is dark.
- 2 In the diagram above, label the part of the Earth that is day. Label the part that is night.
- 3 What causes the occurrence of day and night?

- 4 How long does it take for the Earth to complete one rotation about its axis?
