

# May 15 worksheet

## Artikkel **a/an**

- Näitab, et tegemist on ühe suvalise elusolendi või asjaga (a boy, a girl, an apple)
- Kasutatakse ametitest rääkides (a doctor, a teacher)
- AN kasutatakse täishäälikuga algava sõna ees - a, e, i, o, u (an elephant, an odd number, an owner)

## NÄITEKS:

- I got **a** kitten for my birthday. **The** kitten is black in colour.

*Alguses on a kitten, sest see on suvaline ja pole varem mainitud. Pärast on the kitten, sest me räägime sellest samast varem jutuks olnud kassipojast.*

- Do you live in **the** country?

*Siin the country tähendab ühte kindlat asja - maakohta.*

- Where's mum? - She's in **the** kitchen.

*Siin on ema ühes kindlas köögis, mitte mingis suvalises köögis ükskõik kus maailmas.*

## Artikkel **the**

- Näitab, et tegemist on ühe kindla või varem jutuks olnud asja, koha või elusolendiga (the boy I saw yesterday, the book I wanted)
- Kasutatakse omadussõna ülivõrde (the best, the prettiest, the most interesting) ja järgarvude (the first, the the fifth, the eleventh) ees.

\* Kui sõna algab kaashäälikuga, mida ei hääldata, siis paneme ette AN
