

HOW TO OPERATE A BLENDER

Order the following instructions in order to make a logical sequence.

Unplug the blender

Press the stop button when the mix you need is ready

Wash the pitcher carefully for another use

Select the speed and press the start button to start the process

Remove the lid from the pitcher so that you can pour away its content

Remove the lid and put small quantities of food inside the pitcher

Secure the pitcher into the base and put the lid on it again

Put the base on a flat surface

Plug in the blender to an electrical outlet
