

BAD WEATHER FOR SPORT

We expect snow in _____ for skiing and warm sunny days in summer for _____. But the weather is changing and it's not good news.

Are you going to the _____ for skiing holiday this year? Then, check the weather very carefully before you go. Global warming is changing the weather. The _____ are very high and there isn't much snow. People can't ski without snow, and many ski resorts are in trouble. Glencoe in Scotland is a good _____ of a ski resort in trouble. If it doesn't snow, the _____ won't open the resort. Ski resorts from the Alps in Switzerland to the mountains in Bulgaria will have similar problems in the future.

Global warming is affecting other sports, too. The famous Elfstedentocht in the Netherlands is a _____ ice-skating race. In the race, competitors skate over the canals connecting eleven cities. In the last 20 years, the only Elfstedentocht race was in _____ because there wasn't any ice to skate on in the other years.

The World Aquatics Championship in Italy has also got bad news. This championship was always outdoors, but it's very hot in the _____ now. So the next World Aquatics Championship is going to move indoors.
