_____

Question 1:

ICE CREAM SALES						
MON	**TUE**	**WED**	**THU**	**FRI**	**SAT**	**SUN**
$ 410	$ 440	$ 550	$ 420	$ 610	$ 790	$ 770

Using the information above and answer the questions below:

(a) What day of the week sold the most ice cream? _____

(b) What day of the week sold the least ice cream? _____

(c) What do you put on the X-axis of the graph (horizontal)? _____

(d) What do you put on the y-axis of the graph (vertical)? _____

(e) What can conclude from the table?

_____

Question 2:

Sarah bought a new car in 2011 for $24 000. The value of her car changes each year as shown in the table below:

Value of Sarah's Car	
2011	$ 24 000
2012	$ 22 500
2013	$ 19 700
2014	$ 17 500
2015	$ 14 500
2016	$ 10 000
2017	$ 5 800

Draw a straight line graph using the information above and answer the questions below:

(a) What do you put on the x-axis (horizontal scale)? _____

(b) What do you put on the y-axis (vertical scale?) _____

(c) What was the highest value recorded? _____

(d) What was the lowest value recorded? _____

(f) What can conclude from the graph?

_____

_____
