

Organismal Biology

10. Nutrient Procurement and Processing

PART 1 Plant Nutrition

QUIZ

Name:

Grade & Section

Multiple Choice

Select the correct answer.

This photo by Nefronus is licensed under [CC BY SA 4.0](https://creativecommons.org/licenses/by-sa/4.0/)

These structures promote symbiosis except:

- A. mycorrhizae
- B. root nodules
- C. haustoria
- D. none of the above

Matching Type

Match the items in Column A to those in Column B.

A	B
Root hairs	Symplast route
Plasmodesmata	more SA for absorption
Plant cell wall	nitrogen fixation to soil
Root nodules	Symbiosis with fungi
Mycorrhizae	Apoplast route

Multiple Choice

Select the correct answer.

In acidic or sandy soils, these are usually deficient except

- A. nitrogen
- B. potassium
- C. magnesium
- D. calcium

Multiple Choice

Select all possible answers.

Which among the following are micronutrients?

- A. sulfur
- B. boron
- C. lead
- D. silicon

Multiple Choice

Select the correct answer.

This photo by Coldilocki is licensed under [CC BY SA 3.0](https://creativecommons.org/licenses/by-sa/3.0/)

The symptom when leaves turn pale or yellow is called

- A. chlorosis
- B. mottling
- C. browning
- D. Two of the above

Multiple Choice

Select all possible answers.

The following are true about macronutrients except

- A. Macronutrients are needed by plants in huge doses.
- B. Oxygen is technically a macronutrient.
- C. Macronutrients are 50% of a plant's dry weight.
- D. Nitrogen, Potassium and Phosphorus (NPK) are the most essential among the macronutrients.

True or False

Select if True or False.

Water and oxygen from the environment are essential for plant survival and photosynthesis.

TRUE

FALSE

Matching Type

Match the items in Column A to those in Column B.

A

Symbionts

Predators

Autotrophs

Parasites

Heterotrophs

B

the host does not benefit

chemosynthetic bacteria

animals, microbes and fungi

mutually beneficial ties

enzymes digest the insect

Multiple Choice

Select the correct answer.

The science that deals with how nutrients are absorbed.

- A. homeostasis
- B. physiology
- C. nutrition
- D. biochemistry

This photo by S. Bauer is licensed under [Public Domain](#)

Multiple Choice

Select all correct answers.

Modified plant structures for predation include

- A. haustoria
- B. mycorrhizae
- C. traps
- D. pitchers
