

Dear pen-pal,

Thanks so much for your last letter and for the funny pictures you sent. I love having a pen-pal, it's really great.

I loved hearing about your family and so today I thought: I'd write and tell you a little about my family and home.

Most people live in a flat or house, some people live in tree houses, old castles, abandoned light houses and even caves but my family is different because we live in an airplane! Can you imagine?! It is situated near a forest here in the USA and I love it, everything is so green and clean.

My father is an engineer and he loves planes so I suppose it was only natural that one day he would buy a plane as a home. Of course it only looks like a plane because inside we have everything we need to live a normal life. There is electricity, running water and there are a lot of windows! Because we live far from the city, there are some spectacular views from any window of our unusual home.

There is a bathroom and two bedrooms, one for my parents and the other for me. Mine is at the back of the plane. It's really very cozy and comfortable. There is also a living room and a kitchen. It's always funny when my friends come and visit. They like the idea of living in a plane and so do I.

Kisses, Aina

True or false?

Aina has got a usual home.

She lives near the city.

She likes the place where she lives.

They don't have water or electricity.

There are three bedrooms

Her room is comfortable.

Answer the following questions:

Where is Aina from?

Who does she live with?

What type of home she got?

What's her dad's job?

How many rooms are there?

What's her bedroom like?

Find the opposites in the text.
