## Listen to the first speaker and fill the gaps in the following text.

The plane has been developed by lots of people	the years, but the Wright
brothers certainly made it work and made it	Planes existed before, people
had made aeroplanes fly before, but I always have a huge	for the inventor
who really makes it work; Henry Ford I have the same adm	niration for because he made a car
, and made it	, and made it work. So the Wright brothers
for me are probably the most - should be the most	people when it comes to
aeroplanes.
