

"How Does A Moment Last Forever"

How does a moment last forever?
How can a story die?
It is love we must onto
Never easy, but we try
Sometimes our happiness is
Somehow, our time and place still
Love lives on our hearts and always

**Minutes turn to, days to years then gone
But when all else has been forgotten
Still our song on

Maybe some moments weren't so perfect
Maybe some not so sweet
But we have to know some bad times
Or our lives are
Then when the shadows us
Just when we feel all is gone
We'll our song and know once more
Our love on

How does a moment last forever?
How does our happiness?
Through the of our troubles
Love is beauty, love is
Love pays no mind to
It flows like a river through the soul
Protects, proceeds, and
And makes us

back to **
