Taking away one set

5 There were 437 doughnuts at a bakery.
229 of them were sold.
How many doughnuts were left?

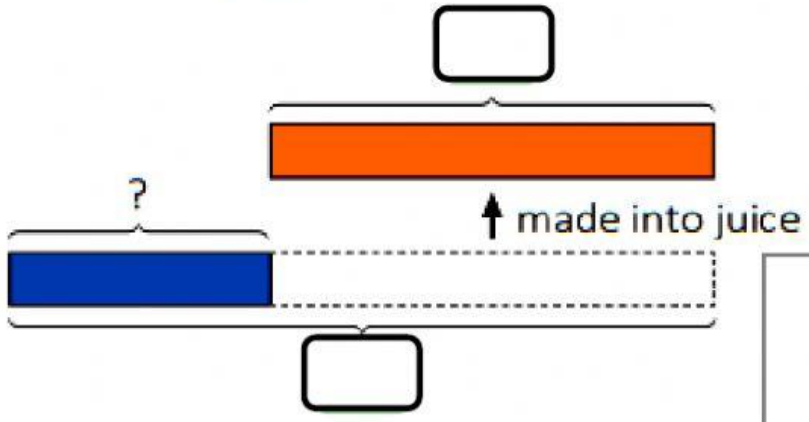

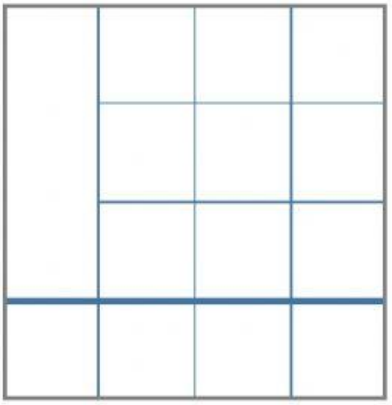

437 – 229 = 208

208 doughnuts were left.

6 Ali picks 649 apples from his farm.
He uses 412 of them to make juice.
How many apples does Ali have left?

□ – □ = □

Ali has □ apples left.
