The little girl likes to draw and paint. She is very good at painting colourful flowers. Her favourite colours are red and yellow. She doesn't like the colour black at all. She thinks it always looks so dark and boring, so she uses the colour brown instead. It is her mum's birthday soon and she wants to give her a nice new painting of three colourful flowers growing in the garden.

What does the little girl like to do?

What is she very good at doing?

What are her favourite colours?

What colour doesn't she like?

What does she want to give her mum for her birthday?
