## WOULD YOU LIKE KETCHUP WITH YOUR ICE CREAM?

charcoal

1 Ice cream is nothing new. The Chinese ate ice cream two thousand years ago. They mixed milk and rice and froze it in snow. The ancient Romans loved eating snow with honey and fruit. For many years, ice cream was only for rich people. The ingredients were expensive and it cost a lot to keep it cold. Today ice cream is for everyone!

2 Have you ever tried to make ice cream? It's simple. All you need is milk or cream and sugar. Some recipes use eggs too. Then you can add vanilla (the most popular flavour), chocolate, strawberries or other ingredients. If you only have fruit and sugar, you can make a delicious sorbet. A sweet and sour lemon sorbet is great in the summer.

3 If you are not afraid to try, there are some unusual ice cream flavours too. Have you ever eaten spicy ice cream with chocolate and chilli? You can also make ice cream with salty biscuits in it. What about these flavours? There's sausage ice cream and cheese ice cream. There's even black ice cream with charcoal in it. Check out the photo!

**Comments:**

I've seen charcoal ice cream, but I haven't tried it because it sounds disgusting. molly15

I've had charcoal ice cream and it wasn't too bad. Ice Age

I love chocolate ice cream, but I've never had it with chilli! I'm going to try it! I-scream!
