

## Total Cost of Purchase with Taxes

**Example 1:** A shirt purchased for **\$19.99 +HST**

**a) Find 13% Ontario HST**

$$\frac{13\%}{100\%} = 0.13 \times \$19.99 = \$2.5987 \rightarrow \text{round to 2 decimal places} = \mathbf{\$2.60}$$

**b) Add purchase price and taxes**

$$\$19.99 + \$2.60 = \mathbf{\$22.59}$$

Purchase Price Before Tax	13% Ontario HST	Total Price including tax
\$24.99		
\$110.03		
\$8.69		
\$1201.50		
\$1516.49
