

Why am I enrolled in the pathway connect?

I am enrolled in the Pathway Connect program because I want to become a better English teacher.

One of the ways I feel this program will help me become a better English teacher by finding the tools that it's going to take my English to the next level that I need to improve as I can know more vocabulary, writing better and speak fluent. I know I cannot easily advance in my current career without additional education. This will help me on my journey to become a better English teacher.

For the last seventeen years, I haven't made much progress in my career as an English teacher. I have the work experience I need to progress, but not the level of education. so that it's the reason and motivation to finish pathway connect, because I'm sure that if I finish this course my English would be much better than it is now and I will be able to teach advanced levels of English, and to have a stable job for my life.

Knowing that I can get a better educational, financial, and even personal developmental benefits to me being part of this program. These benefits are sure to help me become a better English teacher.
