

For 7th grade

Module-4. WHAT AND WHEN. Unit-9. LONG LONG AGO

Exercise-1. Read the text.

Dinosaurs are big lizards. They **lived** 165 million years ago. They all **died** millions of years before people **lived** in the world. They **lived** on land and couldn't fly. Dinosaurs **lived** on all continents. The largest dinosaurs **were** over 30 m long and 15 m tall. The smallest dinosaurs **were** about the size of a chicken. Dinosaur's eggs **were** in many shapes and sizes. There **were** lots of different kinds of dinosaurs. Some dinosaurs **ate** plants. Others **ate** meat. Some **walked** on two legs, some **walked** on four. Some **could** do both. They **had** horns, plates, thorns, spines, long necks, and claws. Dinosaurs **disappeared** 65 million years ago.

Exercise-2. Choose the best answer.

1. When did dinosaurs live?
2. What did dinosaurs eat?
3. Could any dinosaurs fly?
4. What sizes were the smallest dinosaurs?
5. Did people and dinosaurs live at the same time?

Exercise-3. Make questions about dinosaurs. Put words correct order.

1. did/ When / they / live?
2. When / they/ did / die?
3. they /Could / fly?
4. How big / the largest / were / dinosaurs?
5. were / What size / dinosaur's eggs?
6. What / they/ did / eat?
7. all dinosaurs / Did / walk / on two legs?
8. When / were / dinosaurs / extinct?
