

What's in each home?

Read the two descriptions of each home and identify the differences.

John's House

My house is big. There is a pool in my backyard. Also, there are two bathrooms. One is for the guests and the other one is for my family. There are five bedrooms and there is a closet in each bedroom. There is also a big garage because we have two cars and a motorcycle. There is a big living room. In the living room, there are two TVs and three sofas.

Petter's House

I live in an apartment. I do not have many things here because it is not too big. There is only one bedroom with two beds and one closet. There is one bathroom. There is also a small living room. In the living room, there is a TV, a sofa, and a bookshelf. There is a small kitchen. There is no yard in my apartment, but there is a balcony. Sometimes I like to sit there and enjoy the view of the city.

- What are the differences between John's house and Petter's department?
- Write down the differences using "There is/are" "There isn't/aren't"
