

Are you fond of collecting and reading books? Well, if you had a messy bookcase, this cool new gadget could help you to arrange it. You just need an app on your smartphone or tablet.

This product is amazing because it lets you arrange your books by colour, by author, or by topic. It can also help you organise your books alphabetically. Think about it: You have hundreds of books in a messy bookcase. You bring this product in front of this bookcase, and it can scan it with a special camera, then it sends you a report and a virtual bookcase where all books are arranged well. I love how the product lets you design your own bookcase. You just scan the room, and it designs a bookcase that suits the colour of the room and the books.

This product is **incredible**, but there are somethings about it that I don't like. First, although you can control it by an app, it only functions with iPhones. It would be great if we could use it with other companies. The company is working on this problem. They are negotiating with other companies. Second, whenever this product is damaged, you can't easily fix it. You have to wait for online response to get help. All in all, I give this product six out of ten.

Read and answer the questions.

1- What does the product do?

2- Give an example of one good (positive) point of this product.

3- Give an example of one bad (negative) point of this product.

4- What's the writer's opinion?

5- Would you like to use this product? Why? Thinking Question

6- The word "**incredible**" means:

 **LIVEWORKSHEETS**
