Impact 1 – Unit8: Into the past

Reading "Historination app"

Have you ever wondered how our ancestors' lives were in the past? And have you ever imagined that there is a way to relive their lives and see them? It seems impossible but its TRUE.

There is this amazing app you can find in Google store or app store that's called "Historination" this app is now popular and its rating 5 stars and its totally free! Once you download it and enter, create your profile with information about yourself and write two names of close adults like your parents. After you finish, you can go to the home page and the magic starts!

You will find some options to choose from like "Find your origin" once you click on it the camera will open and take a shot of your face and it will give you some information about your origins and possible ancestors. Also, there is an interesting option which is " Live stream forever" once you click you must choose a date, year or century then, it will take you on a visual trip through time and there will be a storyteller voice playing and giving you some valuable information about that specific time.

There are a lot of things you can do using this app so, go download it and start your visual trip into the past. I totally recommend it and I rate it 9 out of 10.

Read the statements and fill in the gaps with True (T) or False (F).

1) This app you can find it in windows store for pcs only ( )
2) This app is popular, and its rating is 5 stars ( )
