

1. Watch the video about hard and soft skills. Make notes if necessary.

1.2. Look at some specific examples. Find the meaning of unfamiliar words if any.

Hard Skills	vs.	Soft Skills
• Bilingual or multilingual • Database management • Adobe software suite • Network security • SEO/SEM marketing • Statistical analysis • Data mining • Mobile development • User interface design • Marketing campaign management • Storage systems and management • Programming languages (such as Perl, Python, Java, and Ruby)		• Integrity • Dependability • Effective communication • Open-mindedness • Teamwork • Creativity • Problem-solving • Critical thinking • Adaptability • Organization • Willingness to learn • Empathy
Hard skills are technical knowledge or training that you have gained through any life experience, including in your career or education.		Soft skills are personal habits and traits that shape how you work, on your own and with others.

 LIVEWORKSHEETS
