SECTION : _____

SCORE : _____

Read and interpret electric and water meter readings (M6ME -IVd -100);**FRIDAY**

Direction: Study the table below then answer the following questions.

Household	Electric Meter Reading	
	Previous Readings (kWh)	Present Readings (kWh)
A	3140	3388
B	6395	6710
C	4706	4953
D	5215	5580
E	6535	6795

1. Which household consumed the most electricity?
2. Which household consumed the least electricity?
3. Which two households consumed almost the same energy in kWh?

B. Read and solve the following problems.

4. Reyes family's water consumption is 117 m^3 . If their previous water meter reading was 0531, what is their present water meter reading?
5. Last month, the water meter reading of a household was 1552 m^3 . The following month, it was 1596 m^3 . If the basic charge of water consumption per cubic meter is ₱2.55, how much will they need to pay?
