

## ÀREA DE COSSOS GEOMÈTRICS

Troba l'àrea lateral, l'àrea de les bases i l'àrea total de les següents figures sabent que totes les dades són amb centímetres.

|                                                                                     |                                                                                                                              |
