

Ruth Wakefield invented them when she ran out of baking chocolate

He discovered the buoyancy of water while taking a bath.

What is the difference between them?

Isaac Newton discovered gravity accidentally

finding something that already exists for the first time

Jane: Hi Ali. I know you are interested in science. Last week, I saw an interesting article about accidental inventions and discoveries.

.....

Ali: A discovery is

and invention is creating something totally new with one's own ideas.

Jane: Do you know any accidental discoveries or inventions?

Ali: Actually, we know most of them because they are part of our lives. For example, He was sitting under a tree when the apple hit his head.

Jane: What about the discoverer who shouts 'Eureka! Eureka!' in the bathroom?

Ali: You are talking about Archimedes. Talking like this made me hungry. Let's eat some chocolate chip cookies.

Jane: I really like these cookies. Do you know the story behind the chocolate chip cookies?.....
.....and put a NESTLÉ® chocolate bar into it. She expected them to melt, but they didn't.

Ali: Wow! I didn't know that.
