

Rika has a very busy life. She is a highschool student, so she starts her day very early. She wakes up at 5:30 and showers before she eats breakfast. Her older brother drives her to school at 6:30 after he works out, because it is far from home. Sometimes, Rika prefers to take the bus, because she can go to school together with her friends.

She studies from 7 a.m. to 15 p.m. and then she goes home. She always has lunch at school, so she only eats a snack at home. She showers again and it is time to go to her English course. She rides her bike to go there, and she studies from 4 p.m. to 5 p.m with the same friends she has at school. She has English classes twice a week, on Mondays and Wednesdays. On Tuesdays and Thursdays, she has ballet classes, and on Fridays, she has guitar lessons at 5:30 p.m.

On weekends, Rika rarely goes to the beach with her friends, but she sometimes likes to swim in her pool. She loves when her mom cooks her favorite dish: lasagna. Rika is terrible at cooking, but her mother is the best cook she knows. She doesn't go to her friends' houses very often, because they don't live near each other, so she usually plays video games online together with them.

1. Complete and answer the questions according to the text:

- a) _____ Rika get up early? _____
- b) Does Rika _____ up before or after 6 o'clock? _____
