BICYCLES

The bicycle is a cheap and clean way to for travel. The first bicycle was made in about one hundred and fifty years ago. At first, bicycles were much expensive. Only rich people could buy one. These early time bicycles looked very different from the ones we have them today. Later, when bicycles became cheaper, many lot people bought one. People started riding bicycles to work and in their with free time. Today, people use cars more than bicycles; cars are much more faster and you don't get wet when it start rains! But some people still prefer to cycle to work. They say that there have are too many cars in town centers and you can't not find anywhere to park.
