Hello, my name is Peter. I am ten years old. My birthday is on July 14th.I am from Italy. I live in Rome with my mum, dad and my little sister Anna.

I am tall and thin and I have got short black hair and brown eyes.

I go to a big school and I study six subjects: English, Italian, maths, science, art and P.E. I love Italian. It is my best subject. I like English too! However, I don't like maths. It is my worst subject. I think maths is very difficult.

My classroom is very big. In my classroom, there are twelve girls and eight boys, so there are twenty desks and twenty chairs, one for each student. There is a whiteboard and a big bookshelf with lots of books.

This is my desk. On my desk, there is a ruler, a rubber, a book and my pencil case. In my pencil case, there is a pencil, a pen and there are many crayons. Look under my chair! It is my sharpener!

My best friend is Carlos. He is my classmate. We are in the same class. We like playing basketball and listening to music.
