

You Carry Me
Moriah

1. What do you think these expressions mean?

- it feels like
- to get weary
- through it all
- to leave one's side

2. Listen to the song and complete the lyrics:

Feels like it's been miles and miles
Feels like it's an uphill climb
Sometimes I get weary on the way
But when I look back at _____
I've been
When I look back, I'm sure of it
I was right there in your arms and I
can say

Every moment of my _____
God, you never left my side
Every valley, every storm
You were there, you were there
I don't need to _____ what's
next
You'll be with me every step
Through it all, through it all
I can _____ You carry me

There are _____ I wonder if
You can fix the mess I'm in
Times when nothing seems to go the
way it should
But then I look back on every season
I can find there's ten thousand
reasons
To trust that you can _____ all
things for good

Every moment of my _____
God, you never left my side
Every valley, every storm
You were there, you were there
I don't need to _____ what's
next
You'll be with me every step
Through it all, through it all
I can _____

Through the wind and waves
Through my worst mistakes
Through the _____ I thought I
walked alone
You were holding me
You were whispering
I will never leave you on your own

Every moment of my _____
God, you never left my side
Every valley, every storm
You were there, you were there
I don't need to _____ what's
next
You'll be with me every step
Through it all, through it all
I can _____ 2x
You carry me
