FCE 2015 – TEST 2 - PART 2

Reading and Use of English

Part 3

For questions 17–24, read the text below. Use the word given in capitals at the end of some of the lines to form a word that fits in the gap **in the same line**. There is an example at the beginning (0).

Write your answers **IN CAPITAL LETTERS** on the separate answer sheet.

Example: 0 C O M P E T I T O R S

Running speed

Elite (0) like the Jamaican Usain Bolt have regularly been clocked **COMPETE**
running at nearly 45 kilometres per hour. Such speed would have seemed
(17) not so long ago. Scientists now suggest that humans can **BELIEVE**
move (18) faster than even that, perhaps as fast as 65 kilometres **CONSIDER**
per hour.

For years, it was assumed that simple muscle power determined human
speed, but recent research suggests otherwise. The most important
(19) factor appears to be how quickly the muscles can contract **LIMIT**
and thus (20) the time a runner's foot is in contact with the ground. **MINIMUM**

Is our athletic ability inherited? Researcher Alun Williams has (21) **IDENTITY**
twenty-three inherited factors that influence sporting performance, such
as the (22) use of oxygen, and strength. As world population rises, **EFFICIENCY**
predicts Williams, the (23) of there being someone with the right **POSSIBLE**
genes for these twenty-three (24) will increase noticeably and thus **CHARACTER**
faster runners are likely to emerge in future.

Part 4

For questions 25–30, complete the second sentence so that it has a similar meaning to the first sentence, using the word given. **Do not change the word given.** You must use between **two** and **five** words, including the word given. Here is an example (0).

Example:

- 0 A very friendly taxi driver drove us into town.

DRIVEN

We a very friendly taxi driver.

The gap can be filled by the words 'were driven into town by', so you write:

Example: 0 **WERE DRIVEN INTO TOWN BY**

Write **only** the missing words **IN CAPITAL LETTERS** on the separate answer sheet.

- 25 Robert had never been to Turkey on business before.

FIRST

It Robert had ever been to Turkey on business.

- 26 It was impossible for me to know which road to follow.

NOT

I known which road to follow.

- 27 So far this year the cost of petrol has not increased.

INCREASE

So far this year there in the cost of petrol.

Reading and Use of English

51	
----	--

has had to change his diet with a change of sport?

52	
----	--

Sports diets

Four athletes talk about what they eat.

A Mark

When I'm cycling on my own I stuff my pockets with bananas and protein bars. On the longest rides I'll eat something every half an hour. For heavier training it's physically impossible to get enough energy from food alone, so you do rely on energy drinks. One development in sports nutrition since I've been competing is the focus on the importance of protein. Cycling is much more weight-orientated than the swimming I used to do, which means I need to eat differently now. Protein feeds the muscles but keeps them as lean as possible. I've been an athlete for 20 years so healthy eating is normal for me, but that's not to say I don't get a tasty take-away meal from time to time. I've just learned to spot the meals that will provide what I need. It's simple things like steering clear of the creamy sauces and making sure I get lots of veg.

B Stefan

Everyone says: 'As a runner you must be on a really strict diet. Do you only eat salad? Are you allowed chocolate?' But that's really not the case. I've got salad and vegetables in my shopping trolley but there's always some chocolate in there, too. I do most of the cooking at home. On the morning of a competition, I get so nervous I feel really sick. I have to force myself to have something so I'll have enough energy to perform well. Sometimes I get those days where I don't want to be so disciplined. You think: 'I've trained really hard, I deserve to have a pizza.' It's OK to have a little relapse every now and then but I can't do it every day or I'd be rolling round the track!

C Guy

For a gymnast, a kilo can make all the difference. But if you don't eat enough you'll be a bit shaky and weak. It's all about eating the right amount, at the right time – two hours before you do anything. Breakfast is fruit and if I'm a bit peckish, wholewheat toast and butter! I get to training for 12 pm, then break after three hours for lunch – more fruit, a cheese and tomato sandwich. I'm back in the gym from 5 pm to 8 pm, then I go to my Mum's for steak and vegetables or chicken and salad. I don't tend to mix carbs with meat late at night. I'm not the best cook, but I think it's fun to do. I know how to make chicken from my mum's recipe, it just takes me a bit longer to get organised.

D Tomas

It's definitely possible to eat delicious food and be a professional swimmer. I've always loved food so I'm not going to be obsessive because you can get what you need and still enjoy every bite. I'm not really one for endless protein shakes and energy drinks. Before a training session I'd rather have a banana. That's not to say I'm perfect. At the world championships I got my feeding strategy wrong – and I paid for it. For my sport it's what you eat two days before the competition that makes the difference. You have to 'carb load' – eat piles of rice or pasta – and I didn't. I was leading for a long way but I ended up 11th. My biggest indulgence is pastry. And I love baking. I train for 33 hours a week so in my time off I need to rest, and spending time in the kitchen is perfect. Swimming is my biggest passion but baking comes a close second.
