

Ed Sheeran ft. Antytila 2step

I had a bad ____

Spent the evening pretending it wasn't that **deep/keep**

You could see in my ____ that it was taking over

I guess I was just blind and caught up in the ____

You ____ you take all of my **stress/dress** right down

Help me get it off my **chest/best** and out

Into the ether with the rest of this ____ that just keeps us depressed

We forget that we're ____ right now

'Cause we're living ____ at a different **pace/piece**

Stuck in a constant race

Keep the pressure on, you're bound to ____

Something's got to **change/chance**

We ____ just be cancelling all our plans

And not give a damn

If we're missing out on what the people think is right

Lose the conversation for the message that you'll never read

I think maybe you and me

Seeing through a picture behind a screen and forget to be

Oh, we should head out to the place where the music plays

And then we'll go all night

Two-stepping with the woman I love

All my проблеми turn to nothing when I'm in your очі

Electrified, we'll keep turning up and go all ніч

Oh, we had dips and падіння in our time

But we знаємо what it feels to be low then up

Самотній then loved

And all we need is us to go all

Night, night

Two-stepping with the woman I love

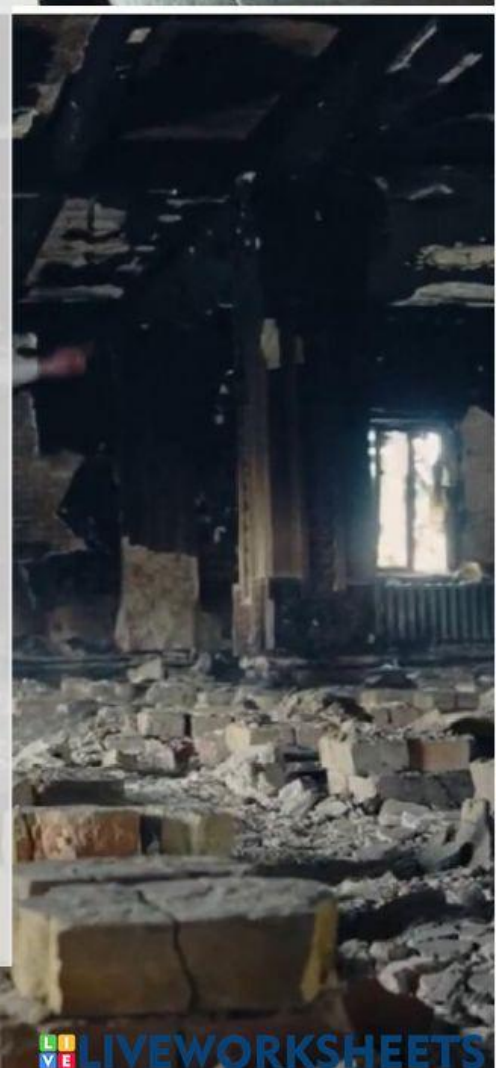

Night, yeah

All we need is us

Сирени обірвали наш сон

У дві валізи все минуле

Далі go go

Ти за кермом в невідомий
Всі нерви в кулак
І не рви мене так
Я залишаюся вдихати дим

Осфтанні запахи Dior із ним
Я пам'ятаю, ти хотіла в Рим
Все йде до того, що спочатку на Крим
Ми свій двіж замутим
Ніхто не вийде із води сухим

Нас застав напружений ранок, як ціль
Ау, драма місяцями
Герої ми тут, і ми тут showrunner
Горить сюжет, скільки ще ракет
Мила, обіцяю, коли все мине

Я танцюватиму з тобою so slow
І цілуватиму туди, де любов
Знов і знов
Чекай мене, коли все це мине
Я впаду з тобою в цей flow

Зацілую туди, де любов
Знов і знов
Чекай мене, коли все це мине

Night, night
Two-stepping with the woman I love
Night, yeah
All we need is us to go all night

Night, night
Two-stepping with the woman I love
Night, yeah
All we need is us to go all night
