- A. reduce B. increase C. waste D. save

Câu 6. We should put.....on our roof for the heating and hot water.

- A. solar energy B. equipment C. cracks D. solar panels

Câu 7. Find the word which has a different sound in the part underlined

- A. page B. information C. pavement D. transport

Câu 8. Find the word which has a different sound in the part underlined

- A. celebrated B. danced C. discussed D. pronounced

Câu 9. Find the word which has a different sound in the part underlined

- A. turned B. crossed C. described D. terrified

Câu 10. Find the word which has a different sound in the part underlined

- A. bread B. great C. instead D. spread

Câu 11. Find the word which has a different sound in the part underlined

- A. Combine B. vocabulary C. doubtful D. boring

Câu 12. Many people still believe that natural resources will never be used up. Actually, the world's energy resources are limited. Nobody knows exactly how much fuel is left. However, we also should use them economically and try to find out alternative sources of power. According to Professor Marvin Burnham of the New England Institute of Technology, we have to start conserving coal, oil and gas before it is too late; and nuclear power is the only alternative.

However, many people don't approve of using nuclear power because it is very dangerous. What would happen if there were a serious nuclear accident ? Radioactivity causes cancer and may badly affect the future generations. The most effective thing is that we should use natural resources as economically as possible.

12. According to the passage, using nuclear power is _____

- A. dangerous
B. interesting
C. safe
D. cheap

Câu 13. Many people still believe that natural resources will never be used up. Actually, the world's energy resources are limited. Nobody knows exactly how much fuel is left. However, we also should use them economically and try to find out alternative sources of power. According to Professor Marvin Burnham of the New England Institute of

Technology, we have to start conserving coal, oil and gas before it is too late; and nuclear power is the only alternative.

However, many people don't approve of using nuclear power because it is very dangerous. What would happen if there were a serious nuclear accident ? Radioactivity causes cancer and may badly affect the future generations. The most effective thing is that we should use natural resources as economically as possible.

13. Radioactivity from nuclear power _____

- A. the future generations do nothing with it
- B. alters a new kind of energy
- C. are necessary to cure diseases
- D. causes cancer and has bad effect on the future generations

Câu 14. Many people still believe that natural resources will never be used up. Actually, the world's energy resources are limited. Nobody knows exactly how much fuel is left. However, we also should use them economically and try to find out alternative sources of power. According to Professor Marvin Burnham of the New England Institute of Technology, we have to start conserving coal, oil and gas before it is too late; and nuclear power is the only alternative.

However, many people don't approve of using nuclear power because it is very dangerous. What would happen if there were a serious nuclear accident ? Radioactivity causes cancer and may badly affect the future generations. The most effective thing is that we should use natural resources as economically as possible.

14. How much fuel is left ?

- A. No one know exactly
- B. Let's use it as much as we would like
- C. It will never be used up
- D. There is a lot of fuel

Câu 15. Many people still believe that natural resources will never be used up. Actually, the world's energy resources are limited. Nobody knows exactly how much fuel is left. However, we also should use them economically and try to find out alternative sources of power. According to Professor Marvin Burnham of the New England Institute of Technology, we have to start conserving coal, oil and gas before it is too late; and nuclear power is the only alternative.

However, many people don't approve of using nuclear power because it is very dangerous. What would happen if there were a serious nuclear accident ? Radioactivity causes cancer and may badly affect the future generations. The most effective thing is that we should use natural resources as economically as possible.

15. We should use coal, oil and gas _____

- A. as economically as possible
- B. carelessly
- C. as much as possible
- D. all are incorrect

Câu 16. Our school will _____ the school festival next week.

- A. organize
- B. take
- C. rehearse
- D. play

Câu 17. _____ silly mistake!

- A. What
- B. How a
- C. How
- D. What a

Câu 18. I and my brother usually spend two hourevery evening.

- A. do our homework
- B. doing our homework

C. to do our homework

D. to doing our homework

Câu 19. When I saw your teacher this morning, I found that he looked very

A. happy

B. happily

C. to be happy

D. being happy

Câu 20. Come here. We havegood news for you and your family.

A. a

B. many

C. a lot

D. some

Câu 21. Mr. Truong feels sick now because he drank too.....wine this morning.

A. many

B. few

C. lots

D. much

Câu 22. I didn't break those glass windows but my classmates, Tuan and Hoang.....

A. do

B. didn't

C. did

D. didn't, either

Câu 23. - "Would you like some corn?" - "....."

A. No, thanks. I'm full

B. Ok. I don't like corn

C. All right

D. Yes, I would

Câu 24. In Britain, the climate is not very good. There are very few hot days and it rains a lot. Because of this, people spend a lot of time at home. Generally, British homes have a lot of furniture in them, carpets on the floors and heavy curtains.

Many houses in Britain are old. Many of them are over one hundred years old. Often, they do not have enough insulation and the heat goes out through the windows, the doors and up the chimney.

Because of the climate, people in Britain have to spend a lot of money on heating. Many houses have special system called "central heating". The heats all the rooms and, at the same time, heats the hot water. Houses without central heating often have gas, electric or coal fires. The rooms in most British houses are quite small.

New houses are much better. They have two layers of glass in the windows to stop the heat going out.

24. Why do British people spend a lot of time at home?

A. Because the climate is not very good.

B. Because they don't know where to go

C. Because the climate is very good.

D. Because they want to stay at home

Câu 25. In Britain, the climate is not very good. There are very few hot days and it rains a lot. Because of this, people spend a lot of time at home. Generally, British homes have a lot of furniture in them, carpets on the floors and heavy curtains.
