

WELCOME TO OUR HEALTHY LIVING UNIT

The benefits of living a healthy and active lifestyle are numerous.

You can decrease your risk of developing heart disease, cancer, stroke and other serious diseases. You can even look and feel better, and you may also increase your longevity.

Make one healthy change in your diet, and once that becomes routine, make another small change.

 EAT SMART.   LEARN HOW ►	 ADD COLOR.   LEARN HOW ►	 MOVE MORE.   LEARN HOW ►	 BE WELL.   LEARN HOW ►
---	---	--	---

Infuse more movement into your life for optimal health.

Make healthy, delicious choices wherever and whenever you eat.

Make life more colorful with fruits and vegetables.

Create balance, vitality and wellbeing through self-care.

NUTRITION

Nutrition is the science that interprets the interaction of nutrients and other substances in food in relation to maintenance, growth, reproduction, health and disease of an organism.

Instructions: Place the foods in the food pyramid according to the amount recommended.
