

Part 4

► 10 questions ◀

Read the text. Choose the right words and write them on the lines.

Octopuses

Example

..... Many people think that octopuses are very interesting creatures, but others believe that they are horrible monsters of the ocean! This might be they look quite strange. They have round heads, large eyes, eight long arms and a soft body.

1

2 There are around 300 different kinds of octopuses and they

3 lived in our oceans thousands of years. Now, they know

4 many ways to get away from animals which want to eat !

5 One way is by changing colour. For example, they can turn grey to look like a rock. Other animals swim without seeing them!

6 Also, octopuses collect shells and put them outside the places

7 they live. They look a little like gardens!

8 This also them from animals. And octopuses can do another amazing thing. When another animal eats one of its arms, it

9 can grow a new one ! Everyone knows that some octopuses are dangerous humans, but we shouldn't

10 think that they are ugly monsters. Actually, they are one of the creatures on our planet!
