

DIFFERENT LANDFORMS

When you are traveling, it's important to know the definitions of each type of land so you know how to travel across it.

DIRECTIONS:

Draw a line and match the landform picture with the correct definition.

1. Plateau

2. Hill

3. Mountain

4. Lake

5. River

6. Ocean

7. Plain

8. Island

a. A small piece of land with water all around it

b. An area of land that is higher than the land around it, but flat

c. A tall piece of land, usually with steep sides

d. A line of water; can be curvy

e. Flat, open land

f. A small mound

g. A small body of water, with land all around it

h. A very large body of water
