

Division - Equal Sharing.

How many sets of 2 can I get from the following?

Example 1:

14 stars = 7 sets of 2 stars

Now complete the following:

4 stars = ____ sets of 2 stars

8 stars = ____ sets of 2 stars

12 stars = ____ sets of 2 stars

6 stars = ____ sets of 2 stars

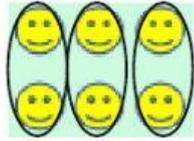

16 stars = ____ sets of 2 stars

20 stars = ____ sets of 2 stars

10 stars = ____ sets of 2 stars

Example 2: $6 \div 2 = \underline{3}$.

Now complete the following:

$4 \div 2 = \underline{\quad}$

$10 \div 2 = \underline{\quad}$

$18 \div 2 = \underline{\quad}$

$12 \div 2 = \underline{\quad}$

$20 \div 2 = \underline{\quad}$

$24 \div 2 = \underline{\quad}$

$14 \div 2 = \underline{\quad}$
