Question 28: A. Therefore B. However C. In addition D. Although
Question 29: A. beauty B. beautiful C. beautify D. beautifully
Question 30: A. the B. Ø (no article) C. an D. a

IX. Read the following passage and circle the letter A, B, C or D to indicate the correct answer

Pollution can be seen not only throughout the world, but also in our own homes. It comes from household chemicals, the amount of water people use and the waste people produce and throw away. What can be done to stop this pollution? Surprisingly, a person can help save the environment by doing simple things. First, we need to recycle, which allows products to be used over and over again. Recycling can also reduce the number of trees cut down to produce paper products. **It** takes very little effort. It is not hard to place plastic and glass bottles, aluminum cans and paper in a bin. Anyone can do it. Second, we need to watch the amount of water used in the home. It can be conserved by taking short showers instead of baths, repairing leaky faucets, using the dishwasher or washing machine only when fully loaded, or simply turning the faucet off while brushing your teeth. Third, we need to reduce waste. We need to recycle whenever possible, but should also try to use this waste effectively. For example, grass clippings and food scraps can be made into compost for plants. The average person produces 4.3 pounds of waste every day, but we can reduce that amount by recycling and reusing. If we do our part in our own homes, we can help keep the planet from becoming more polluted.

- Question 31:** How many ways of saving the environment are mentioned in the passage?
 A. one B. two C. three D. four
Question 32: The word "**It**" in paragraph 2 refers to _____.
 A. the number B. recycling C. effort D. paper
Question 33: In order to save water, we can do the following things **EXCEPT** _____.
 A. take short showers B. repair leaky faucets
 C. turn the faucet off while brushing your teeth D. fully use the washing machine
Question 34: Which of the following statements are TRUE according to the passage?
 A. We can only see environment throughout the world. C. Recycling takes great effort.
 B. We can reduce waste by means of recycling and reusing. D. It is hard to place plastic and glass bottles.
Question 35: What is the topic of the passage?
 A. Saving the environment in homes B. Causes of environment pollution
 C. Effects of environment pollution D. Solving the problem of recycling

X. Rewrite each of the sentences below in such a way that it means exactly the same as the one given before
