

## E-safety: Software piracy

### Activity 1

Help Ahmed to decide if the following sentences are **true** or **false**.

|   | Sentence                                                                   | True or false |
|---|----------------------------------------------------------------------------|---------------|
| 1 | Downloading an app without paying for it is legal.                         |               |
| 2 | Making apps can be very expensive.                                         |               |
| 3 | The terms and conditions for an app tell you how you can use it.           |               |
| 4 | Software piracy rules are only for computer software, not smartphone apps. |               |
| 5 | Software piracy is illegal in the UAE.                                     |               |
