1  1.9  Look at the photos. Think of two things you know about wolves. Read and check your ideas.

Wolves

Wolves can be grey, black, white or brown. There are wolves in sixty countries. There are wolves in Russia, Canada, India and China. There aren't any wolves in Australia.

Wolves are big. Lots of wolves are a hundred centimetres (cm) long. They've got a long tail. Some are fifty cm long. They've got forty-two teeth. A wolf can run at sixty-five kilometres per hour (kph)!

A wolf family is called a 'pack'. There are four to nine wolves in a pack. Wolves eat birds and fish.
