A: Yes, it has.

3. Label the activities.

4. Read and write what do/don't Sarah, Tim, and Rob like doing?
Complete the table with yes, no or ? (Don't know)

Personally, I love doing brain training games like number puzzles and quizzes. I download Sudoku apps onto my mobile phone, so I can play them on the bus on the way to school. I don't think they make you more intelligent - they're just fun! My brother loves playing chess, but I hate it. I think it's too complicated and slow.

Our teacher says that doing crosswords and brain training games is good for your brain, and that puzzles help us become more intelligent. But in my opinion, they're really boring. I don't think they can make you more intelligent, because they're too difficult to begin with!! I prefer real exercise like basketball.

I really like doing crosswords and Sudoku. I'm also good at playing chess. I play online chess with my cousin every week, and I usually win! Sarah hates playing chess with me because she finds it difficult. I think puzzles are relaxing, and they can help us use our brains better, no doubt.

	chess	crosswords	brain training games	Sudoku
Sarah	☐	☐	☐	☐
Tim	☐	☐	☐	☐
Rob	☐	☐	yes	☐

5. What do you do to train your brain?
