

Calculate the estimate difference.

a) 4738 – 2827 (estimate by rounding off to nearest 10's)

$$\underline{\hspace{2cm}} - \underline{\hspace{2cm}} = \underline{\hspace{2cm}}$$

b) 7639 – 5784 (estimate by rounding off to nearest 100's)

$$\underline{\hspace{2cm}} - \underline{\hspace{2cm}} = \underline{\hspace{2cm}}$$
