Reading

C. Read and complete the text with the given words and answer the questions.

Giant Trees

Redwood and giant sequoia trees are the tallest trees in the world. Many of them are over 100 meters tall. Redwood trees are located in the coastal area of northern California, USA. Giant sequoias, which are similar to redwoods, are also found in California. Some of these trees are over 2,700 years old. There are national parks where you can see these ancient trees. You can camp in a tent there, hike through the forest, and even explore caves. You should bring a compass so you don't get lost. These trees don't exist anywhere else in the world. If you ever have a chance, you should come see these unique and amazing trees.

Read and choose the correct answer

1. What is amazing about these giant trees?
☐ a They're very old. ☐ b They're so similar. ☐ c They grow in California.
2. Where can you see these giant trees?
☐ a anywhere in the world ☐ b anywhere in the USA ☐ c in California
3. How different are redwoods and giant sequoias?
☐ a They're very different. ☐ b They're quite similar. ☐ c They're exactly the same.
4. What is one thing you can do in the national parks?
☐ a climb mountains ☐ b catch fireflies ☐ c explore caves
