Mathematics - Weight

A. Write the weight shown on the scales below.

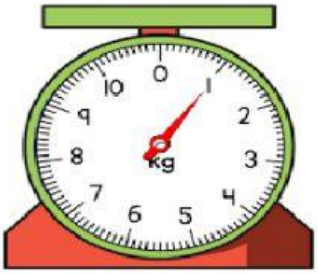

Remember!! If the arrow is between two numbers, you write the number that it is just past and then 1/2.

e.g.

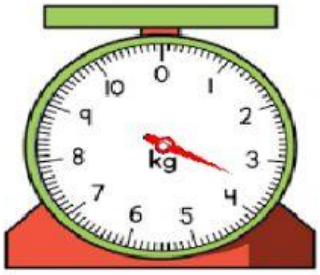

The arrow is past **5** but not yet to 6.

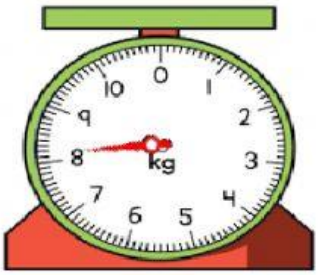

The weight is **5 ½ kg**. (five and a half kg)

The weight is _____ kg.

The weight is _____ kg.

The weight is _____ kg.

The weight is _____ kg.

The weight is _____ kg.

The weight is _____ kg.
