My dad

In my friends' houses, their mums prepare the meals. It's different in our house. My dad's main hobby is cooking!

He goes to classes after work and enjoys learning about meals from different countries. He can even bake cakes.

So, he cooks for the family every evening - which is great for us all. Is he a good cook? Well, OK when he cooks

easy meals! But he doesn't always remember to put sugar in the cakes. Ugh!

My mum

Every year we go to different countries on holiday. My mum loves learning languages so she can speak to the people.

She knows French and Spanish. Now she's learning Italian. She goes to classes after work every Friday.

She thinks they are brilliant. The teacher is my brother Ewan. Ewan teaches school children in the day and

then he gives Italian classes in the evenings. Mum sometimes doesn't listen and talks when the teacher is saying

something. Ewan often tells her to be quiet!

My sister, Alice

We've got two dogs, Polly and Silver, and for my sister, Alice, they're like children! She enjoys being with them,

taking them for walks every morning and cleaning them every day. She also likes training them to walk and sit and

be good. Polly and Silver are special dogs. They go in competitions and they often win prizes.

Sometimes Alice takes

them to France and Germany for competitions and I go with her. I'm learning to train the dogs too.

It's fun, and

the dogs love it!
