Student Worksheet

"DATA REPRESENTATIONS"

ACTIVITY 3

Allocation Time : 5 minutes

Learning Activity Goals : Students can give examples of method to collect data

Instruction :

1. Read any information that has been given.
2. Answer the questions given

After understanding the importance of data, have you ever thought about how someone can collect that data?

Take a look at the following illustration!

To find out the data of students who bring and do not bring mathematics textbooks in class, one student can do various ways. For example, he asked his friends one by one whether he brought a mathematics textbook or not.

Can you think of any other way he can get the data?

Answer:

Summarize what techniques/methods can be used to obtain data in general!
