3. Read about credit and debit cards. Then complete the sentences.

When we pay with a credit card, the bank is lending us money. Later we have to pay the money back with interest. That means we have to pay back more money than we spent. A debit card lets us buy products without using bank notes and coins. But a debit card is different from a credit card, because we can't use a debit card if we don't have money in our bank account. When we use a debit card, the money leaves our account immediately.

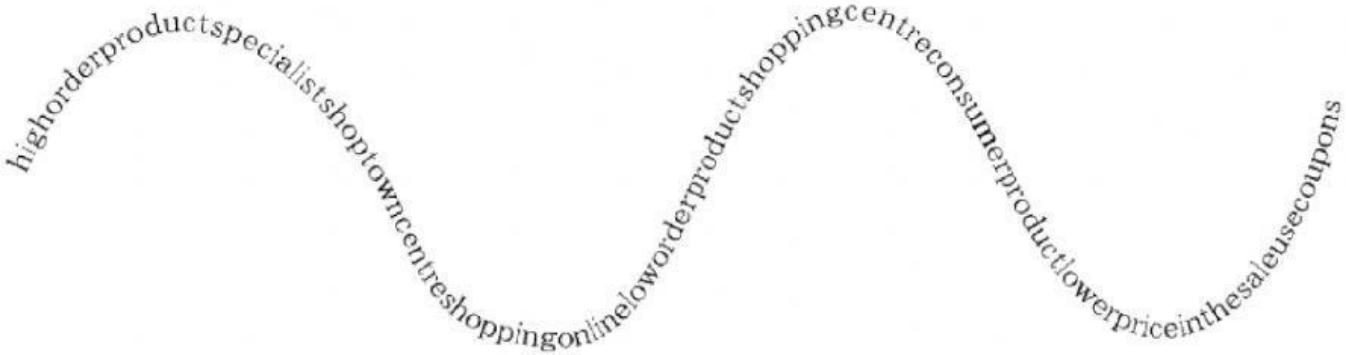

a) A credit card is useful because _____.

b) The disadvantage of using a credit card is that _____.

c) Debit cards are useful because _____.

d) Debit cards are different from credit cards because _____.

4. Find ten expressions connected to spending in the wordsnake.
