

Seeds on the Move

By Lee Wang

Read the passage. Then answer each question.

Seeds come from plants. When seeds are ripe they leave the plants and find a new place to grow. Seeds are of many shapes and sizes. Seeds are moved in different ways. Some seeds are moved by the wind. These seeds are small and light and when the wind stops

blowing, these seeds fall. Some seeds are moved by animals. Some seeds stick to the fur or wool of animals. Other seeds are eaten by animals. Some seeds are moved by water. They float on the top of the water until they reach land. Seeds are moved in many ways. When the seeds stop moving they can start growing. Some seeds grow into new plants.

Answer the questions.

1. Where do the seeds come?

2. Why seeds leave the plants?

3. How many types of seeds are there?

4. What do the seeds do when they stop moving?
