

Name: _____ Grade: 9/____

Nos: ____ Period: ____ Show clear working in your notebook

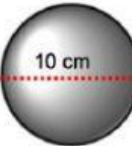

1. Shown is a sphere with radius 8cm.

Calculate the surface area of the sphere.

Give your answer to 1 decimal place. **Answer:**cm²

2. Shown is a sphere with diameter 10cm

Calculate the surface area of the sphere.

Give your answer to 1 decimal place.

Answer:cm²

3. Shown is a sphere with radius 6cm.

Calculate the surface area of the sphere.

Give your answer in terms of π **Answer:** π cm²

4. A sphere has radius 5cm.

Calculate the surface area of the sphere.

Give your answer to 1 decimal place. **Answer:**cm²

5. A sphere has surface area 800cm²

Calculate the radius of the sphere, x.

Answer:cm²

6. A sphere has surface area 3600π cm².

Calculate the radius of the sphere, x.

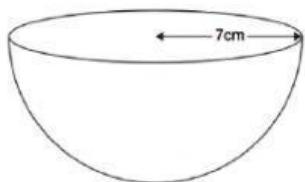

Answer:cm²

For question 1-8: Kindly drag and drop your answers appropriately from the table below:

461.8	7.98	804.2	30
114	6.3	314.159	34.2

7. Shown below is a hemisphere.

Calculate the surface area of the hemisphere.

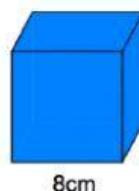

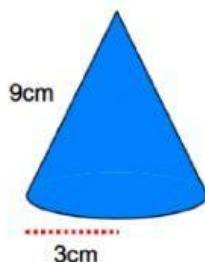

Answer: cm^2

8. Shown below is a sphere, cone and cube.

The surface area of the sphere is equal to the sum the surface areas of the cone and cube. Given that Surface area of a cube is $6a^2$.

Find Y

Answer: cm^2
